

Omvivo is an Australian brand with products recognised worldwide. Omvivo products are designed with longevity as a principal aim, achieving this through the highest quality of craftsmanship, choice of materials, timeless design and consideration of the product's environmental impact and sustainability. Omvivo represents a conscious, holistic approach to design, offering a considered choice of products for life not just for fashion. From the meditative fountain like qualities of Le Cob bath to the timeless Washplane® collection, the products are truly one of a kind, displaying a commitment to innovative design.

Product Range

Minimalist basins, vessels, tapware, baths, shower systems, bathroom storage and accessories.

Major Brands

Washplane® collection, Ulisse Outlets, Shower bases and drains, KL Vessel and Cabinets, Pond Vessel and Cabinets, Crab1™ Storage system, Le Cob bath.

Application

Commercial, hospitality and residential.

Sustainability

Omvivo has a commitment to providing products that endure a lifetime and beyond. Water efficiency has also been a long-time concern: Omvivo's 2 oldest products, the water-saving Washplane® and Pond™ Vessel, have a shallow form which forces consideration towards water management,

as well as, for many years, being the only basins on the market requiring a water saving spout. Omvivo's products are manufactured within the Schiavello Group. The factory is externally certified to ISO 9002 and ISO 14001. The in-house Research and Development team use Life Cycle Analysis to guide product design and development.

Major Projects

Sydney Opera House, NSW; Ephraim Island Villas, Qld; Melbourne GPO, Vic; Sheikh Mansour's Royal Palace and Offices, Dubai; The Advertiser Newspapers, SA; Eureka Tower, Vic; Science & Technology Park, Qatar.

Lead Time

Ex stock.

1 KL Vessel, Ulisse Outlet, KL Shelf, Crab1™ Storage

This free-standing assembly includes the KL Vessel in matt finish composite Satiné with the Ulisse 250 x 32mm water saving outlet, a KL Shelf in satin Omni Glass and the Crab1™ Storage system that slides open to allow easy access to the shelves.
Range Washplane® & Crab1™.
Manufacturer Omvivo.
Application Residential and Commercial.

2 Geo Washplane® with Ulisse Outlet

Formed from a solid slab of limestone or marble, the Geo Washplane® is a contemporary design classic. Designed by Joseph Licciardi, it features minimalist design and classical proportions with stone's beautiful patina. The Geo Washplane® enhances the natural beauty of water.
Range Washplane®.
Manufacturer Omvivo.
Application Residential and Commercial.

3 Onda Washplane® in colour-backed Omni Glass with Ulisse Outlet.

Onda is Italian for 'wave'. The Onda Washplane® is available in 12 or 19mm acid etched satin-finish Omni Glass. This unique glass has a frosted appearance and is resistant to dirty marks.
Range Washplane®.
Manufacturer Omvivo.
Application Residential and Commercial.

4 Onda Double Washplane® in Corian®

The Onda in Corian® was first shown at the 2002 Superfici fair in Milan. Despite its fine elegant form, Onda in Corian® is extremely durable. Any stain can be removed and scratches, chips or cracks can be repaired. (Photo courtesy of HPA Mirvac, Ephraim Island Villas, Qld.)
Range Washplane®.
Manufacturer Omvivo.
Application Residential and Commercial.

5 Le Cob with Ulisse Floor to Bath Outlet

Le Cob is the figurehead of the Licciardi collection of products for Omvivo. It is named after Le Corbusier and his iconic Chaise Lounge and is designed to emulate bathing in a stream. Le Cob is made from Cameo White Corian® AB™ and 19mm glass and features an optional pebble-covered overflow drain.
Manufacturer Omvivo.
Application Residential.
